## FIRST ANNUAL REPORT.

OFFICE BOARD OF STATE PRISON COMMISSIONERS, }  
HELENA, MONTANA, December 1st, 1891. }

*To His Excellency, Joseph K. Toole, Governor of Montana:*

In conformity to the law and the statutes of the State of Montana, the Board of State Prison Commissioners submit this, their First Annual Report, showing their proceedings for the year ending December 1st, 1891.

During the year last past the duties of the several members of the board in their several departments has been such that it was impossible to give the time and attention to the inspection of the prison and prisoners that might be required by legislative authority.

What the board has failed to perform in that direction it believes it has met by prison regulations, which require from the contractors full and complete reports concerning the happening of any event in the prison.

The board has, in the absence of legislative license, assumed to control the management of the said prison at Deer Lodge, by framing and adopting rules for the governing of the contractors and employes, and for the government and discipline of the prisoners confined in the State Prison.

In view of the fact that the prison rules were not adopted until September 3, 1891, we find it impossible to obtain from the records complete tables for the entire fiscal year ending December 1st, 1891; therefore we have not deemed it advisable to make an extended report, and content ourselves with calling the attention of Your Excellency to the tables herein enclosed from A to F inclusive:

1. Table A shows the number of State prisoners confined in the State Prison on December 1, 1891, with tabular references thereto.

2. Table B shows the name of each prisoner who had been punished for violation of the prison rules during the fiscal year, the offense committed and the mode and extent of punishment.

3. Table C shows the names of all prisoners discharged from the prison for the fiscal year ending December 1, 1891.

4. Table D shows the amount of money belonging to the prisoners confined in the prison for the fiscal year ending December 1, 1891, with the amounts set opposite the name of each, showing a total of \$1,503.21.

5. Table E shows a list of the prisoners treated by the prison physician for the month of November, 1891, with the list of their diseases and the nature of the treatment and result of such treatment.

#### RECAPITULATION.

Number in prison December 1, 1890.....	242
Discharged by expiration of sentence.....	90
Discharged by pardon.....	5
Discharged on writ habeas corpus.....	2
Delivered to sheriffs for new trial.....	3
Transferred to insane asylum.....	2
Died.....	3
Escaped and since recaptured.....	2
Total released.....	— 107
	—
	135
Number received from December 1, 1890, to December 1, 1891.....	173
	—
Number in prison December 1, 1891.....	308

6. Table F shows expenses incurred by the Board of Prison Commissioners for the fiscal year ending December 1, 1891.

Respectfully submitted,

JOSEPH K. TOOLE,

Governor and President of the Board.

H. J. HASKELL,

Attorney General.

L. ROTWITT,

Secretary of State and Secretary of the Board.

Members of the Board of State Prison Commissioners.

SECOND ANNUAL REPORT

OF THE

BOARD OF STATE

**Prison Commissioners,**

OF THE

**State of Montana,**

December 1, 1892.

## SECOND ANNUAL REPORT.

---

OFFICE STATE BOARD OF PRISON COMMISSIONERS, }  
HELENA, Montana, Dec. 1, 1892. }

*To His Excellency, Joseph K. Toole, Governor of Montana:*

In compliance with the laws of the State of Montana, the State Board of Prison Commissioners respectfully submit this their second annual report of the management and condition of the State Prison situated at Deer Lodge, State of Montana, for the fiscal year ending December 1, 1892.

During the year the affairs of the prison have been conducted in a very satisfactory manner. The establishment has been kept clean and in good order and many improvements and additions made thereto.

The prison has been in operation since the year 1871. At that time the north wing of what is now the Montana State Prison was built by the Federal government and was donated to the Territory of Montana. It then consisted of a stone building 68x40 feet, with a double tier of brick cells numbering in all twenty-eight, with a capacity of fifty-six. Shortly afterwards it passed under the control of the United States government which entered into a contract with the Territory of Montana to maintain all territorial prisoners, first at \$1, then at 85 cents, then at 75 cents per capita per diem, which contract at the latter price was maintained up to March, 1890. The middle building which is of stone, 35x50 feet, three stories, as well as the south wing was built by the United States government, and was completed in 1886. The middle building is used as sleeping quarters for guards, guards' kitchen and dining room, warden's office and visitors' reception room. The south wing which is 68x40 feet, three stories, contains a three-tier block of brick cells, numbering in all forty-two, with a capacity of eighty-four. In 1889 the United States government also erected a brick building 18x24 feet as quarters for female prisoners; its capacity is eight.

On the admission of the Territory of Montana to the Union, the above described property together with twenty acres of ground in connection therewith, and all outbuildings erected thereon, became the property of the State of Montana by gift from the United States. In February, 1890, a contract for the keeping and maintaining of all State prisoners was entered into between the State and Messrs. Conley and McTague at the rate of 70 cents per capita per diem for the first one hundred, and 65 cents per capita per diem for all over that number, which contract was for a term of one year. On March 9, 1891, the Governor for and on behalf of the State, entered into a contract with Messrs. Conley and McTague to care for the prisoners in the State Prison until March 1, 1893, (at the same rate specified in the former contract) which contract is still in force and effect.

Since acquiring the above property the State Board of Prison Commissioners of Montana, have caused to be erected a third tier of wooden cells, with grated doors and lined with sheet iron, in the north wing of the prison, which cells have a capacity of 42.

Other additions in the way of improvements have been made from time to time as the necessity for them became apparent. In the year 1882, and again in 1885 the kitchen of the prison, which was merely a frame structure, burned down. The fire originated by grease constantly flying from the stove against the rafters and logs to such an extent that the wood and timbers had become partially soaked with grease, which the sparks from the stove ignited, thus consuming the building on the dates above mentioned. The maintaining of a wooden building for a kitchen which was erected alongside of and against the north wing of the prison, was a standing menace against the safety and security of the other buildings, and as well the prisoners therein confined.

A brick building was therefore erected, 20x24 feet, having a stone foundation. Inside the kitchen was built an oven 10x14, which has baking capacity sufficient to feed 600 persons.

The old dining room of the prison was located south of the south wing of the prison, dimensions 20x30 feet, having been built in the spring of 1890. Owing to the increase of prisoners it was deemed necessary to construct a larger dining room, and accordingly in September, 1891, the old one was moved to a building

which is 150 feet southwest of the south wing of the prison. This building was enlarged by an addition of thirty feet in length, making the present building 20x60 feet, with a seating capacity of 230 persons.

In October, 1890, it became necessary to erect a small log building for the purpose of furnishing facilities for the prison physician to examine prisoners separate and apart from the others, also to provide a place for medicines. The building which was erected is 16x30 feet and contains an operating table.

On March 19, 1892, the overcrowded condition of the prison rendered it necessary to put in a boiler and heater for bathing purposes. Sufficient water can be heated to bathe 600 men each day, and is so arranged that five men can bath at one time.

From time to time additions and improvements have been made, including:

In 1890 a milk house, built at the recommendation of the prison physician, to furnish the prisoners with oatmeal and milk three times each week. In compliance with this recommendation, eighteen cows were purchased by the prison contractors;

A root cellar, for the purpose of holding vegetables sufficient to feed the prisoners for a year;

Three lookouts, for the accommodation of the day and night guards, erected in different corners of the prison yard;

Repairing fences and roof and building new south fence;

Putting in water plant, or water works, in the prison yard, and also putting in water basins for the use of the prisoners in the new cell building, and bringing the pipes into the several wings of the prison, kitchen, wash-house and surgery;

In 1891, a store house, in which to keep provisions and clothing for the prisoners, in compliance with Rule 64, requiring the contractors to preserve all clothing belonging to prisoners whose term did not exceed three years;

A new cell house, with a capacity of 164, for the accommodation of prisoners who, owing to the already crowded condition of the prison proper, could not be confined therein;

Painting buildings, in the process of which two barrels of paint were consumed;

In 1892, laying new flooring in the main hall, galleries and guards' kitchen;

Constructing new dark cells and putting an electric light in the

prison yard to furnish light throughout the premises, besides several minor improvements unnecessary to enumerate.

---

Industry is one of the first lessons that should be taught in a prison. Work is one of the greatest reformers and the chief aid to the reformation of a man is to teach him to make his living. The thing to be attained, if possible, is such an employment or trade as may be useful to a man when he is discharged, and at the same time, proper opportunity should be given for such mental culture as may help to eradicate crime. It must be borne in mind that a large proportion of the convicts are uneducated, illiterate men, some never having attended school or had an opportunity to exercise their mind or brain powers but to a small extent.

Should they be kept shut up and allowed to remain in a perfectly dormant condition, they would be likely to lose control of their mental powers.

Of necessity, owing to the cramped condition of the prison at the present time, and the large number of prisoners therein confined, no very decisive steps can be taken in this matter; but, in this connection we would strenuously urge the establishment of schools in the prison, where not only the common school branches might be taught, but where those prisoners of a higher, more intellectual class might have an opportunity of learning shorthand, typewriting or telegraphy, and we would ask that a typewriter and at least two telegraph instruments be supplied for their use, which would necessitate an appropriation of \$200.

It does not seem right that men should be kept in the prison during the best part of their lives and then set adrift in the world without means or knowledge whereby they might obtain a livelihood: it is not fair to these men, nor is it just that nothing should be taught them while in prison, that nothing should be done to occupy their minds or time.

What wonder is it that prisoners being released from confinement fall into their old associations and are convicted a second time. On the other hand, if they were taught while in prison, to make a living, or their mental condition was elevated, they would not, upon their discharge, be so likely to be exposed to temptation arising from want.

We would strongly advocate the setting aside of an appropriation of \$150 to be used in the purchase of books for the prisoners. In addition to school books or text books, books of history, travel and biography would be beneficial, and at the same time highly enjoyable to the prisoners, some of whom are quite well read and informed and sorely miss the advantage of access to a library.

With a view to obtain reading matter for the use of the prisoners now confined in the State Prison, we transmitted, under date of November 19, 1892, circular letters to the publisher of each weekly newspaper in Montana, requesting that a copy of each weekly edition be sent to the penitentiary, through the Board of Prison Commissioners. As no appropriation had been set aside for this purpose we requested that, if consistent, the publishers should consider the copies so furnished as a donation for the use and benefit of the prisoners. In nearly every instance replies to this communication were favorable, but nevertheless, it seems only fair and we would earnestly request that an appropriation of \$150 be set apart for the purpose of paying the subscription price of these newspapers so mentioned.

As the solution of all of these questions herein set out properly belongs to the Legislative Assembly, we would earnestly recommend that this body, petitioned by the State Board of Prison Commissioners, shall see fit to appropriate a sum of money sufficient to carry out and put into execution the suggestions and matters above referred to.

The facts of the fiscal year ending December 1, 1892, concerning the prisoners and the affairs of the prison are given in twenty-five tables, which follow and to which attention is especially invited.

Table No. 1 gives the birthplace of prisoners confined in the State Prison.

Table No. 2 shows the commitments as classed by counties. The greatest number, eighty, having been convicted in Silver Bow county, and the smallest number, one, in Dawson county.

Table No. 3 shows the term of sentence of prisoners confined in the State Prison. One year is the shortest sentence imposed upon any of the prisoners therein, and nineteen prisoners are sentenced for life.

Table No. 4 shows the occupations of the prisoners. It will be seen that the majority lay claim to being skilled mechanics or to having a "trade," but the greater number of these are not masters of the trades they claim as theirs, but have only a rudimentary knowledge of them.

Table No. 5 shows the offenses for which persons have been committed to the penitentiary. It will be observed that offences against the property are more in proportion than the other two.

Table No. 6 shows the marriage condition of the prisoners; from which it will be seen that a large majority are single men.

Table No. 7 shows under what process the prisoners were convicted.

Table No. 8 shows the ages of the prisoners. Attention is called to the proportion of commitments of persons under twenty years of age. This fact emphasizes the necessity of teaching and training here.

Table No. 9 shows the number of prisoners treated by the prison physician and the disease for which they were treated.

Table No. 10, being a continuation of Table No. 9, shows the number of days, weeks or months each prisoner was treated by the physician.

Table No. 11 shows the number of prisoners punished for violation of rules and the number of the rule violated.

Table No. 12 shows the mode and extent of punishment of the prisoners who have violated the rules of the prison.

Table No. 13 shows the number of prisoners confined in the State Prison who cannot read, cannot write, those who have attended school not to exceed one year, those who have attended school not to exceed six months and those who have never attended school at all.

Table No. 14 shows the term of sentence of the prisoners described in the above table, viz: those who cannot read, cannot write, etc.

Table No. 15 shows the financial condition of the prisoners confined in the State Prison.

Table No. 16 shows the process of release of prisoners for the fiscal year ending December 1, 1892, whether discharged by expiration of sentence, pardon, etc.

Table No. 17 shows the length of "good time" allowed prisoners; the Statute and the Rules of the Prison having provided

that every prisoner who shall conduct himself in an orderly and peaceable manner, shall be entitled to diminution of time from his sentence.

Tables No. 18 and 19 show the amount of expenditures in furnishing discharged prisoners with cash gratuity and suitable clothing and the number of prisoners so supplied.

Table No. 20 shows the number of previous commitments of prisoners received during the year and in previous years.

Table No. 21 shows the conduct of prisoners while in prison, who have since been discharged.

Table No. 22 shows the number of prisoners who were convicted prior to December 1, 1891; number received since that date; number released during the fiscal year ending December 1, 1892, and the number remaining in custody on the 1st day of December, 1892.

Table No. 23 shows the number of prisoners confined in the State Prison for each year since the organization of the State Prison in 1892.

Table "A" shows the amount paid contractors monthly for the keeping of convicts for the fiscal year commencing December 1, 1891, and ending December 1, 1892, and the amount paid out monthly for clothing for discharged convicts and the amount of money paid out to such convicts during said fiscal year.

Table "B" shows the name of the Sheriff of each county, county wherein prisoner was sentenced, date of admission at prison, mileage allowed Sheriff for transporting each convict and the amount so allowed, mileage allowed Sheriff to and from prison and the amount so allowed, total number of prisoners taken from each county, and total amount allowed each Sheriff for the fiscal year ending December 1, 1892.

Table "C" refers merely to the State Board of Prison Commissioners and is an account of the expenses incurred by them during the fiscal year ending December 1, 1892.

A reference to the records of the State Prison reveals the following facts, and we draw the following conclusions therefrom:

The monthly expenses for the care and maintenance of prisoners for the month ending November 30, 1889, were \$3,965.25, while those for the month ending November 30, 1892, were \$8,162.20. The report for the month ending November 30, 1889, shows that the number of prisoners in the State Prison

at that time was 178; while the report for the month ending November 30, 1892, shows that there were 343 prisoners in the penitentiary.

We find that the increase of prisoners for the year 1892 is almost double the number of prisoners convicted during the year 1889, while the expense for caring and maintaining them for the month ending November 1, 1892, is more than double that for the month ending November 1, 1889.

Reckoning on this basis it is fair to presume that the number of prisoners for the next fiscal year, ending December 1, 1893, will exceed 375, while the expense of keeping the same will probably amount to the sum of \$100,000; and the expense for the fiscal year, ending December 1, 1894, \$125,000.

We would present this as a suggestion to your Excellency, and the Legislative Assembly, in order that they may have before them some estimate of what the probable cost of maintaining prisoners in the penitentiary for the next two years will be, and thus make sufficient appropriation for the same.

To the end that the business and work connected with this department may be transacted with method and dispatch, all means and facilities so to do should be readily furnished the board by the law-making power. We would therefore recommend in this connection, that the board be legally authorized to employ a clerk, at a salary of \$1,200 per annum for the performance of the duties arising thereunder.

It may be here noted that Rule 73 of "Rules and Regulations for the Government of the Montana State Prison," requires that the contractor shall, not more than ten nor less than seven days prior to the expiration of the term of imprisonment of any prisoner in the said prison, furnish the President of the board with a statement showing:

1. Name of prisoner to be discharged.
2. The term of sentence.
3. Good time granted by the board.
4. The date of discharge.
5. The kind of clothing, and condition thereof, belonging to the prisoner.
6. The amount of valuables belonging to the prisoner when committed.
7. The amount earned while in prison.

8. The amount of money expended for the prisoner's use.

9. The amount of money or valuables to the credit of the prisoner.

This statement must be filled out on a blank form prepared by the board.

The findings in each case having been made, they are required to be entered upon the records of the board, which necessitates much clerical assistance. We trust that the Legislature will, after a careful inquiry into and examination of the duties of the department, be satisfied that the necessity for the employment of clerical assistance for this board exists, and that they will see fit to set apart an appropriation sufficient to pay for the services so required.

Respectfully submitted,

JOSEPH K. TOOLE,

Governor and President of the Board.

H. J. HASKELL,

Attorney General.

L. ROTWITT,

Secretary of State and Secretary of the Board.

Members of the State Board of Prison Commissioners.

MAY CUTBERT,

Clerk of the Board.

5 years.....	7		
6 years.....	1	Total.....	45

TABLE NO. 15.

Showing the Number of Prisoners in the State Prison Having Money to Their Credit Prior to December 1, 1891, and the amount. Number Receiving and Earning Money Since December 1, 1891, and the Amount. Number Expending Money While in Prison, and the Amount, and Number Having Money to their Credit at the End of the Year, and the Amount.

Number of prisoners having money December 1, 1891.....	69	
Total amount so held.....	\$	805 42
Number of prisoners receiving and earning money during the fiscal year ending December 1, 1892.....	157	
Amount so received and earned.....		6,683 04
Number of prisoners expending money during the fiscal year ending Dec. 1, 1892.....	155	
Total amount so expended.....		5,934 52
Number of prisoners having money to their credit on December 1, 1892.....	159	
Total amount so credited.....		1,553 94

TABLE NO 16.

Showing the Total Number of Prisoners Released From the State Prison by  
Expiration of Sentence, Pardon, Etc.

Discharged by expiration of sentence.....	123
Discharged by pardon.....	17
Discharged on writ of habeas corpus.....	1
Transferred to insane asylum.....	1
Died.....	3
Total number released.....	145

TABLE NO. 17.

Showing Length of "Good Time" Allowed Prisoners Discharged From the  
State Prison From Dec. 1, 1891, to Dec. 1, 1892.

1 Prisoner allowed 10 days good time.
1 Prisoner allowed 22 days good time.
3 Prisoners allowed 24 days good time each.
7 Prisoners allowed 28 days good days each.
41 Prisoners allowed 1 month good time each.
1 Prisoner allowed 1 month, 4 days good time.
1 Prisoner allowed 1 month, 5 days good time.
1 Prisoner allowed 1 month, 24 days good time.
4 Prisoners allowed 1 month, 28 days good time each.
6 Prisoners allowed 2 months good time each.
1 Prisoner allowed 2 months, 8 days good time.
1 Prisoner allowed 2 months, 24 days good time.
6 Prisoners allowed 2 months, 28 days good time each.
16 Prisoners allowed 3 months good time each.
1 Prisoner allowed 3 months, 3 days good time.
1 Prisoner allowed 4 months, 1 day good time.
1 Prisoner allowed 5 months, 24 days good time.
2 Prisoners allowed 5 months, 28 days good time each.
5 Prisoners allowed 6 months good time each.
3 Prisoners allowed 7 months, 28 days good time each.
1 Prisoner allowed 6 months good time.
1 Prisoner allowed 1 year, 2 months and 28 days good time.
3 Prisoners allowed 1 year, 3 months good time each.
4 Prisoners allowed 2 years, 3 months good time each.
1 Prisoner allowed 2 years, 6 months good time.
1 Prisoner allowed 2 years, 6 months good time.
1 Prisoner allowed 3 years, 8 months good time.
1 Prisoner allowed 3 years, 6 months good time.
1 Prisoner allowed 6 years, 3 months good time.
126 Prisoners allowed good time.
17 Prisoners pardoned.
3 Prisoners died.
5 Prisoners not allowed good time.

145 Prisoners released from the State Prison since December 1, 1891.

TABLE NO. 18.

Showing the Number of Prisoners Furnished with Cash Gratuity when Discharged, and the Amount so Furnished.

Number of prisoners furnished cash gratuity.....	130
Number of prisoners having sufficient money.....	15
Total number discharged.....	145
Total amount of money so furnished.....	\$650

TABLE NO. 19.

Showing the Number of Prisoners Furnished with Clothing when Discharged, and the Value of the Clothing so Furnished.

Number of Prisoners furnished clothing.....	133
Number of prisoners having suitable clothing.....	12
Total number discharged.....	145
Total value of clothing so furnished.....	\$1,830

TABLE NO. 20.

Showing the Number of Previous Commitments of the Prisoners now Confined in the State Prison.

No previous commitments.....	332

[illegible]

(1.) The extra expense for transporting this prisoner was occasioned by the wash-outs, which compelled the Sheriff to go to Deer Lodge by way of Logan, thereby making an additional travel of 100 miles.

(2.) At the time the last two prisoners were transported to Deer Lodge a bridge on the Logan and Battle branch of the Northern Pacific & Montana was burned out, which necessitated taking these prisoners by the way of Helena, which accounts for the extra mileage.

Number of prisoners admitted to State Prison during the fiscal year ending December 1, 1892.....	180
Total amount allowed sheriffs for transporting convicts for said fiscal year.....	\$3,807 00
Total amount allowed sheriffs for mileage to and from State Prison for said fiscal year.....	5,350 30
Allowed for extra deputies in Silver Bow County.....	30 00
Total amount allowed for transportation of convicts and mileage for sheriffs to and from State Prison for said fiscal year.....	<u>\$9,253 30</u>
